Investments

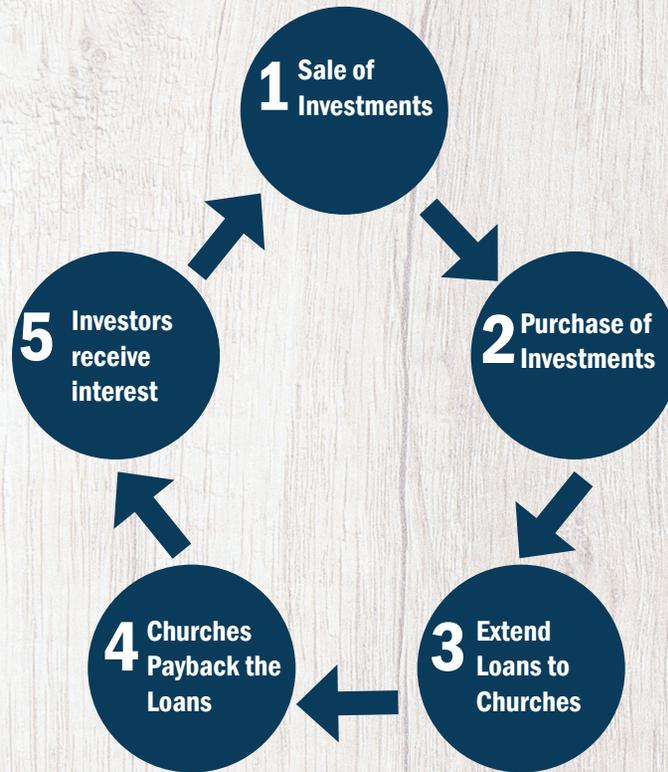

The Investment Program

Seedling Financial Ministry makes loans available to churches within the Susquehanna Conference of the United Methodist Church to acquire, construct, renovate and repair church property.

Seedling is able to make loans through the financial support from investments made by the Conference churches and individual members of the Conference.

Together we support each other by connecting and utilizing God's resources to fulfill our mission of making disciples of Jesus Christ in order to transform the world.

Working together to connect God's resources

Mission

Originally founded in 1916, we faithfully serve United Methodist Churches and its members. More than 500 individuals and organizations currently invest with us and we continue to provide loans to equip our churches to grow in ministry.

We strive to enable churches within the the Conference to achieve future growth in presence and mission, allowing them through outreach to welcome and make disciples of Jesus Christ.

“We chose to invest in [Seedling Financial Ministry]...primarily due to the fact that we know they help other churches grow and being able to know that our money is going to help other churches is important.”

-Ryan Wilt, Co-Chair of Finance Committee, (Aldersgate UMC, York)
